Personal Statement

Passionate and approachable student experienced in delivering practical solutions both independently and within teams. Alongside my studies, I have developed my technical knowledge through stakeholder-led projects for the Scouts and DWP, as well as managing a personal homelab for hands-on experience in networking and automation. I also hold an enhanced DBS through my voluntary work as a Section Team Lead & Trustee with the Scouts.

Experience

Wylam Brewery March 2025 - Feb 2026
Wedding Caterer (Part-Time)

Work as part of a fast-paced catering team delivering high-quality service at weddings and large events. Regularly serve 85–100 guests at once, ensuring efficiency, professionalism, and attention to detail under pressure. Responsibilities include food service, customer interaction, and maintaining a clean and safe working environment.

CyberFirst Horizons July - August 2025
Participant

Participated in the pilot of the “Horizons” program. Developed workplace skills and networked with global leaders including Accenture and Microsoft. Engaged in site visits, including Northumbrian Water alongside wider technical talks to understand qualities employers are seeking.

Education

University of Northumbria Networks and Cyber Security BSc (Hons)
Computer Science September 2026 - August 2030 (Expected)

- Currently studying Networks & Cyber Security at Northumbria.
- Chose this course as it is specialised in my area of interest within industry and involves a practical approach to learning.

North East Futures UTC A-Levels
Computer Science, Maths, Psychology September 2024 - June 2026

- Won first place in a two day, UK wide capture the flag hacking competition run by the National Centre for Cyber Security by solving Cyber Security challenges on TryHackMe.

North East Futures UTC GCSEs
September 2022 - July 2024

- Achieved 7s and 8s across most subjects.
- Subjects studied included Computer Science, Triple Science, and Further Maths.
- Made the switch to UTC for its strong industry links & employer-led projects.

Projects

Explorer Scout Unit Website December 2025 – Present

Developed and now maintaining a website for my Scout District's Explorer Unit following Agile development practices. Engaging with senior leaders and project stakeholders through regular check-ins, requirement gathering, and feedback cycles. Responsibilities include designing and implementing GDPR-compliant data pipelines from form submissions, with a focus on usability and reliability alongside designing the UX/UI and content writing.

Stamp Works January - April 2024

Developed a fully functional mock-up digital solution for the DWP digital team. Built a Flask backend to interface with a SQLite3 database, demonstrating the ability to design relational data structures and process data based on stakeholder requirements.

Awards

Next Gen STEM Award November 2025

The 2025 STEM Awards

As part of the CyberFirst Horizons programme, I led my group during a site visit and tutored other participants on how to develop their own portfolio website. This resulted in a nomination for a STEM Award in the 'Next-Gen' category, celebrating exceptional promise and impact in STEM, which I went on to win.

The Duke of Edinburgh's Award (Silver) November 2022 - July 2025

Achieved my Silver DofE with my Explorer Scout group. During our expedition, we endured the 2nd worst weather our assessor had seen in 35 years, yet completed the 3-day hike. This demonstrates my commitment, resilience, and adaptability, proving my dedication to commitments while also balancing this with GCSEs. Currently working towards my Gold Award.

The Duke of Edinburgh's Award (Bronze) September 2021 - November 2022

Completing this demonstrates independence, perseverance, and responsibility. I engaged in teamwork and initiative while undertaking the various sections in the programme and feel I have grown as a person because of it.

Volunteering

The Scout Association April 2024 - Present

9th Whitley Bay Scouts

I volunteer as a Section Team Lead and Trustee at my local Scout group every Friday - helping plan and lead sessions that boost my leadership, teamwork, and communication skills. It's a really rewarding way to give back - inspiring and educating young people.

I've completed extensive training on everything from safeguarding & first aid to program planning & delivery. I also hold an enhanced DBS.
